

The screenshot displays the OpenStreetMap web application interface. The main map area shows a detailed view of Beijing, China, with a track of waypoints plotted. The track starts at a point labeled '9754' and proceeds through a series of numbered waypoints (1-50) before ending at another point labeled '9754'. The map includes labels for various districts and landmarks, such as '北京市' (Beijing City), '朝阳区' (Chaoyang District), and '海淀区' (Haidian District). A scale bar at the bottom left indicates a distance of 5 km. The left sidebar contains a 'Waypoints' list, which shows a long sequence of waypoints, all labeled '9754'. The top right corner features a 'Point details' section with the text 'No point selected' and a 'Range details' section with the text 'No range selected'. The bottom right corner shows a 'Coordinate format' dropdown menu set to 'Original' and a 'Distance units' dropdown menu set to 'Kilometers'.
